

Where Client Knowledge Lives.

At Clinked (www.clinked.com) we focus on the intersections of internal teams & external clients – where client knowledge lives. Our platform is white-labelled delivering a seamless branded experience, bank-grade secure for worry-free collaboration on highly sensitive client data, and cloud-based for easy to manage interface across remote teams. In addition, our mobile application allows organisations a quick mobile experience to upgrade service offerings to high touch clients, particularly impactful for those in the financial services industry. Our client-facing philosophy is to make customised, easy to use delivery to both external clients and internal teams simple while being secure and transparent for organisations of all sizes, industries, and geographies.

Java Web Application Developer

We are seeking a Java web application developer to join the engineering team. You will be responsible for the implementation and testing of components using Java, Spring Framework and web technologies (HTML, CSS and JavaScript). We are looking for exceptionally skilled and motivated individuals who can bring their own ideas to the table and help influence the future direction of the product.

Essential Skills & Experience

- Web / RESTful API applications using Spring framework stack
- Spring security, including OAuth, and JPA (Hibernate)
- HTML5, CSS, JavaScript, jQuery
- Unit testing and mocking. E2E tests
- Gradle or Maven build tools and Git version control system

Desirable Skills (a huge plus, but not essential)

- Mobile app development using Android SDK or iOS SDK
- Windows desktop app development C# / XAML
- OS X app development using Objective-C or Swift
- Amazon AWS and Docker

Why work with us?

- Leading start-up for collaboration software platform with a global client base
- Fantastic co-working office space (i.e. WeWork Cambridge)
- Dynamic, casual start-up working environment supporting flexibility for study/work balance
- Growing client base across various industries and geographies
- Clinked is the Semi-finalist in the 2012 Cisco British Innovation Gateway (BIG) and Winner of the 2009 Red Herring 100 Europe Awards
- Career growth with an industry innovator and leader

Details:

- **Location:** Cambridge, United Kingdom; Liepaja, Latvia; Remote EU
- **Salary:** Based on experience
